

Hand Picked Hotels
**Wood Hall Hotel, Linton
 Wetherby**

A Grade II listed building built in 1750. The hotel has 44 bedrooms and is situated in 100 acres of green belt. The client required break out space from the public bar, extension to the restaurant facilities and additional conference rooms. A classical glass and stone extension was provided for the bar whilst a very traditional stone extension was designed for the restaurant.

The scale of the conference facility created a large built form which needed to be dealt with sensitively to reduce any potential harm to the green belt. The solution was to cut the building into the natural slope of the land. Creating a green roof yet allowing all principle rooms good views over the countryside.
